

A-LINE

SPENDOR

MADE FOR MUSIC. DESIGNED FOR YOU.

Our new Spondor A-Line loudspeakers prove you don't need a big space, or budget, to enjoy dynamic, open and exhilarating sound. If you're someone who truly loves music, whichever model you chose, they will add a whole new dimension to your listening pleasure.

They are slim, compact and you can place them easily and unobtrusively into your living space and they will fill the room with a clear captivating sound. And thanks to innovative Spondor technology the A-Line loudspeakers will get the very best from whatever equipment you have.

The new Spondor A-Line loudspeakers deliver class leading performance. They are the most adaptable and affordable loudspeakers we have ever created.

HIGHLIGHTS

- Engineering innovation from the multi-award winning Spondor SA1, A6R and D7 loudspeakers
- New Spondor EP77 Polymer cones
- Three elegant natural veneer finishes: Black Ash, Dark Walnut and Natural Oak
- Deep articulate bass
- Calibrated and matched to broadcast reference standard
- British design and manufacture
